ThinkCentre neo 50t  
Gen4 (12JB005ETA)**

i5-13400/8GB/512GB M.2 SSD/Intel  
UHD Graphics 730/Dos

Product Detail

Computer PC Lenovo ThinkCentre neo 50t Gen4 (12JB005ETA)

|                |                                                                                                                                                                                                              |
|----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| CPU            | Intel Core i5-13400, 10C (6P + 4E) / 16T, P-core 2.5 / 4.6GHz, E-core 1.8 / 3.3GHz, 20MB                                                                                                                     |
| Memory         | 1x 8GB UDIMM DDR4-3200                                                                                                                                                                                       |
| Hard Disk      | 512GB M.2 SSD 2280 PCIe NVMe 4.0x4 Opal 2.0                                                                                                                                                                  |
| Graphic Card   | Integrated Intel UHD Graphics 730                                                                                                                                                                            |
| Optical Drive  | None                                                                                                                                                                                                         |
| Keyboard/Mouse | USB Calliope Keyboard, Black, Thai / USB Calliope Mouse, Black                                                                                                                                               |
| USB            | 1x USB-C 3.2 Gen 1 (support data transfer and 5V@3A charging) 2x USB 3.2 Gen 1 2x USB 3.2 Gen 2                                                                                                              |
| Port           | 1x headphone / microphone combo jack (3.5mm) 1x microphone (3.5mm) 4x USB 2.0 (one supports Smart Power On) 1x HDMI 1.4 1x DisplayPort 1.4 1x VGA 1x Ethernet (RJ-45) 1x headphone (3.5mm) 1x serial (9-pin) |
| Speaker        | 2Wx1                                                                                                                                                                                                         |

|              |                                       |
|--------------|---------------------------------------|
| Network      | Intel Wi-Fi 6 AX201, 11ax 2x2 + BT5.1 |
| Power Supply | 260W 90%                              |
| OS           | Dos                                   |
| Weight       | 5.5 kg                                |
| Warranty     | 3 Year                                |
